NGUYEN LE ANH TUAN

Front-end Developer

> I'm learning to become a Full Stack Web Developer.

I'm a student at VNUHCM - University of Science. My major is Information Technology. I have been learning web programming for 3 years. Currently, I'm quite familiar with HTML, CSS, Javascript, Typescript, ReactJS, NextJS with a few personal projects.
My passion is learning new languages and technologies to solve life's problems. I like to share my knowledge and help others.

PERSONAL PROJECTS

Pollme – Website for creating online surveys
- Front-end: NextJS, Typescript, TailwindCSS, i18n, Apollo GraphQL, ChartJS, React Recoil
- Back-end: ExpressJS, Typescript, Apollo GraphQL, Type-GraphQL
- Database: MongoDB, Redis, Cloudinary
- 🔗 **Links**: Github, Live demo

MetaMarket - Online Marketplace - Microservice Architecture
- **Position**: Leader, Frontend Dev, Backend Dev
- **Team size**: 4
- **Project description**: This is a project of the subject "Distributed Application".
- **Status:** Developing
- **Web Technologies:** Front-end (Jquery, Bootstrap). Back-end (PHP, NodeJS Moleculer Framework, MongoDB, MySQL, Socket.io, Momo Payment). Docker, Microservice Architecture.
- 🔗 **Links:** Github

Dynonary – Website for learning English
- Front-end: ReactJS, Material UI, Redux, Redux Toolkit, Axios
- Back-end: NodeJS, ExpressJS, Mongoose.js, Jwt
- Database: MongoDB, Cloudinary
- 🔗 **Links**: Github, Live demo, Video demo

TTB Store - Ecommerce Website
- **Position**: Leader, Frontend Dev, Backend Dev
- **Team size**: 4

- **Project description**: This is the final project of the subject "Introduction to Software Engineering.
- **Web Technologies:** Front-end (ReactJS, AntDesign UI, Redux, Webpack). Back-end (NodeJS, ExpressJS, Mongoose.js). Storage Cloud (Heroku, Firebase, MongoDB Atlas, Cloudinary).
- 🔗 **Links:** Github, Live demo

Pomodoro Timer

- **Web Technologies:** ReactJS, TypeScript, React Context, Vite, Google Firebase Realtime.
- 🔗 **Links:** Github, Live demo

Javascript tips and tricks

- This is a collection of JavaScript (ES6+) tips and tricks. Make the code neater. And it seems to be well received by everyone with 134 stars and 68 forks.
- 🔗 **Links**: Github

TECHNICAL SKILLS

- ➢ **Programming Languages**
  JavaScript, TypeScript.
  I think I can catch up with other languages when needed very fast.
- ➢ **Front-end Technologies**
  ReactJS, NextJS, GraphQL, JQuery, SCSS, Redux, Styled Component, Responsive, Webpack.
- ➢ **Back-end Technologies**
  NodeJS (ExpressJS), RESTful API, GraphQL, MVC, MongoDB, MySQL.

- ➢ **Development / Teamwork Tools**
  Git, Docker, Slack, Trello, VSCode, Vim, Linux, Notion.
- ➢ **Others**:
  - Ability to understand business requirements and translate them into technical requirements
  - Design SQL, NoSQL Database.
  - Intermediate Problem Solving (Link: Hacker Rank's Credential)
